

**One Shelf, Four Sided Cart**

- Distribution**
- Stocking**
- Work-In-Process**
- Display**

This heavy duty folding cart is highly adaptable for a number of applications. Its open design and tilt back feature allow a large volume of material to be moved by one person. The patented slam latch doors are used to secure loads during transport and are easily opened aside for access to the product. When this cart is not in use, the right side and base fold for compact storage.
